

BudgetSpain Campervan and Motorhome hire Frequently Asked questions:

How do I find the cheapest prices for renting a campervan or motorhome in Spain?

The **cheapest** campervans in **Spain** are the smaller 2-4 berths.

These **smaller** vehicles are not available in all depots so you need to search them out by changing your pick up centre to find them.

Avoid airport collections or at least check the **distance** between the **airport and the depot**. In some cases it is cheaper to make your own way to the depot.

The smaller **4-berth pop-top** is ideal for **two to four adults**. This one doesn't have a toilet or shower but is very **economical on fuel**. If you are planning on using the facilities of campsites then this is your best choice. **Book early** online for the **cheapest prices**. Most Spanish campervan companies **give discounts** if you book **well in advance**.

Check your **travel insurance** as you may already have cover for the **insurance excess**. Or, you may not wish to take out extra insurance if you are happy to cover the excess yourself.
